

RAPID AUTOMATED 'PALMS' POLISHING OF PARTIAL DENTURES

The challenge

Replace the dirty and uncomfortable manual polishing with an automated, rapid PALMS method

40 minutes of uncomfortable manual polishing replaced by 2 minutes of environmentally friendly PALMS polishing!

Advantages over electro-polishing

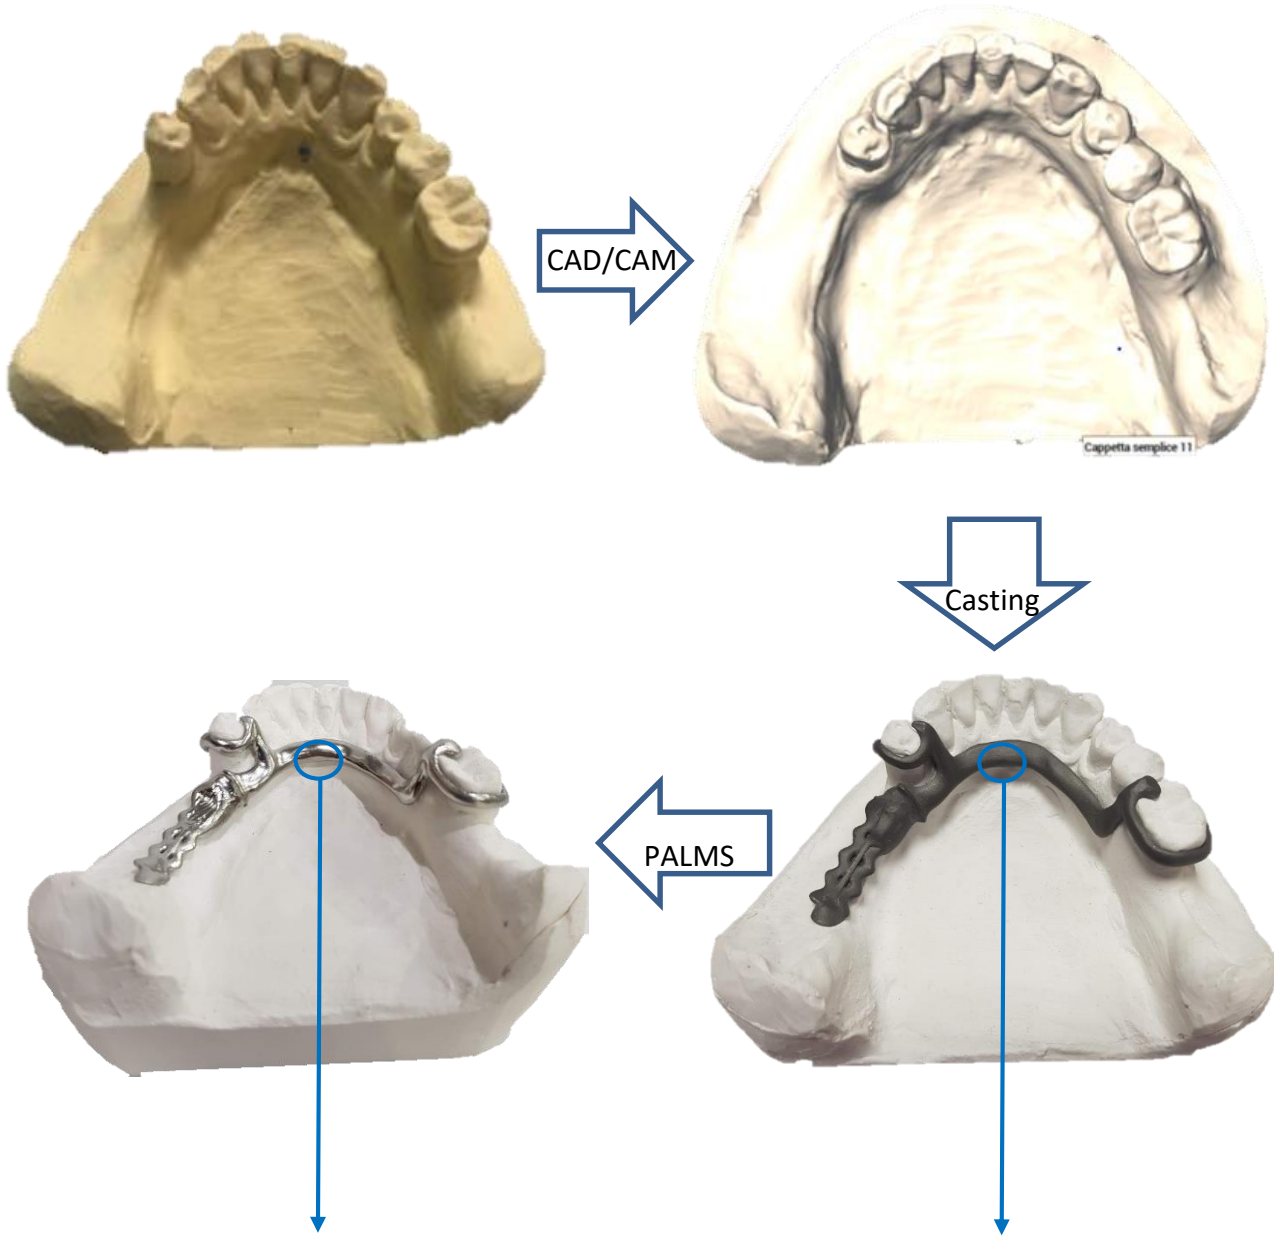

- 8 times faster
- Geometry maintained
- Edges maintained
- No toxic electrolyte
- More cost-effective

Advantages over manual-polishing

- 20 times faster
- Savings on labour
- Avoids long, dirty, tedious task
- Massive cost savings
