

## **ENVIRONMENTAL POLICY STATEMENT**

Wallwork Cambridge Ltd provides first class surface engineering, heat treatment, vacuum brazing and machinery manufacture to all manufacturing and engineering industries.

The Company strives to adopt efficient, safe and environmentally sound working practices which are supported by, and communicated to all levels throughout the organisation. The Company has adopted the following environmental policy:

- To develop and maintain an integrated environmental management system, setting objectives and targets; all to be reviewed and audited on a regular basis.
- To monitor company processes and activities in order to minimise adverse impact on the environment.
- To endeavour to reduce the amount of waste produced, materials and energy used during metal treatment processes and to dispose of all waste products in a safe and responsible way, re-using or recycling where applicable.
- To operate to all relevant environmental codes of practice or industry standards and ensure that the company complies with all relevant legislation and regulatory controls.
- To openly communicate with interested parties all aspects of environmental concerns.
- To establish a program designed to prevent pollution and continuously improve the Company's environmental performance by encouraging the adoption of best available techniques not entailing excessive cost [BATNEEC].
- To provide training to encourage environmental awareness amongst all staff.

A handwritten signature in black ink, appearing to read "Simeon Collins", written over a horizontal dotted line.
